VERSION: 1.0/EN

# **Coving Mortar ES Component B**

in accordance the Commission Regulation (EU) No **2020/878** of 18 June 2020 amending Annex II to Regulation (EC) No 1907/2006 of the European Parliament and of the Council concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH)

# 1 SECTION 1: IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING

# 1.1 Product identifier

**Coving Mortar ES Component B** 

UFI: Q520-M01V-A00E-CJM6

# 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Identified uses** Curing Agent

SU3 Industrial uses: Uses of substances as such or in preparations at industrial sites

SU 22 Professional uses: Public domain (administration, education, entertainment, services, craftsmen)

Uses advised against:. Other than those indicated in the identified use

# 1.3 Details of the supplier of the safety data sheet Eurostep Poland Sp. z o.o.

95-054 Ksawerów

ul. Tymiankowa 37/39; Poland

Tel.: (42) 235-28-88 www.eurostep.com.pl

Product technical information: eurostep@eurostep.com.pl

# 1.4 Emergency telephone number

Nationwide emergency telephones (Mon-Fri 8:00 - 16:00): (+48) (42) 235-28-88

# 2 SECTION 2: HAZARDS IDENTIFICATION

# 2.1 Classification of the substance or mixture

Classification according to Regulation (EC) No 1272/2008

Physical and chemical hazards:

This mixture does not present a physical hazard.

Health hazards

Acute toxicity (oral), Hazard Category 4 [Acute. Tox 4]

Harmful if swallowed (H302)

Skin corrosion/irritation, Hazard Category 1A, 1B, 1C[Skin Corr. 1B]

Causes severe skin burns and eye damage. (H314)

Serious eye damage/eye irritation, (Category 1) [Eye Dam 1]

date of issue: 20.09.2023

VERSION: 1.0/EN

# **Coving Mortar ES Component B**

in accordance the Commission Regulation (EU) No **2020/878** of 18 June 2020 amending Annex II to Regulation (EC) No 1907/2006 of the European Parliament and of the Council concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH)

Causes serious eye damage (H318)

Sensitisation Skin, Hazard Category 1 [Skin Sens.1]

May cause an allergic skin reaction.(H317)

Specific target organ toxicity - Repeated exposure, Hazard Category 2 [STOT RE 2]

May cause damage to organs through prolonged or repeated exposure (H373)

**Environmental hazards:** 

Hazardous to the aquatic environment - Chronic Hazard, Category 3 [Aquatic Chronic 3]

Harmful to aquatic life with long lasting effects. (H412)

# 2.2 Label elements

Labelling according Regulation (EC) No 1272/2008

**Pictogram** 

GHS05 GHS08 GHS07

Signal word: Danger

Substances which influenced classification

Formaldehyde, polymer with benzenamine, hydrogenated

Benzyl alcohol

2-piperazin-1-ylethylamine

4,4'-methylenebis(cyclohexylamine

# Hazard statement(s)

H302 Harmful if swallowed

H314 Causes skin irritation

H317 May cause an allergic skin reaction.

H373 May cause damage to organs through prolonged or repeated exposure

H412 Harmful to aquatic life with long lasting effects

### Precautionary statement(s):

**Prevention** 

P280 Wear protective gloves/protective clothing/eye protection/face protection

Response

P305+P361+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing

P304+P340 IF INHALED: Remove person to fresh air and keep comfortable for breathing.

P303+P361+P353 IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water [or shower].

P308+P313 IF exposed or concerned: Get medical advice/ attention.

<u>Disposal</u>

P501 Dispose of contents/ container to an approved waste disposal plant

#### 2.3 Other hazards

The substances contained in the product do not meet criteria for PBT or vPvB in accordance with Annex XIII of REACH Regulation.

The substance has not been included in the list established in accordance with Article 59 (1) for having endocrine disrupting properties, or as substance identified as having endocrine disrupting properties in accordance with the criteria set out in Commission Delegated Regulation (EU) 2017/2100 (3) or Commission Regulation (EU) 2018/605.

date of issue: 20.09.2023

VERSION: 1.0/EN

# **Coving Mortar ES Component B**

in accordance the Commission Regulation (EU) No **2020/878** of 18 June 2020 amending Annex II to Regulation (EC) No 1907/2006 of the European Parliament and of the Council concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH)

[1] Substance with national exposure limit in the workplace

Full H phrases are specified in point 16 hereof.

# 4 SECTION 4: FIRST AID MEASURES

# 4.1 Description of first aid measures

If inhaled: Take the victim out of the exposure area, place them in a comfortable half-sitting or lying

position, provide calm and protect against heat loss. If needed, seek medical help

In case of skin contact: Remove contaminated clothing. Wash the affected area with plenty of water, preferably

lukewarm. If skin irritation persists, seek medical help c

date of issue: 20.09.2023

VERSION: 1.0/EN

# **Coving Mortar ES Component B**

in accordance the Commission Regulation (EU) No **2020/878** of 18 June 2020 amending Annex II to Regulation (EC) No 1907/2006 of the European Parliament and of the Council concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH)

In case of eye contact: Rinse immediately with plenty of cool, running water and continue rinsing for at least 15

minutes. Remove contact lenses. Do not use heavy streams of water to avoid cornea

damage. If the irritation persists, consult an eye-doctor.

If swallowed: If product is swallowed or gets in mouth, do NOT induce vomiting; wash mouth with water

and give some water to drink. If symptoms develop, or if in doubt contact a Poisons

Information Centre or a doctor.

# 4.2 Most important symptoms and effects, both acute and delayed

Contact with skin: Redness, pain, severe burns, tissue necrosis. May cause an allergic skin reaction

Contact with eye: Serious burns, cornea and conjunctiva damage leading to irreversible vision loss and even

blindness.

Ingestion: Harmful if swallowed Causes severe burns of the mouth, throat, stomach, severe

gastrointestinal tissue damage (risk of perforation) can lead to death. Symptoms: severe pain, vomiting, diarrhea, low blood pressure, symptoms of damage can occur several days

after exposure

Inhalation: Causes serious damage to the upper respiratory tract, burns, possible chemical

pneumonitis and pulmonary oedema.

# 4.3 Indication of any immediate medical attention and special treatment needed

Physician makes a decision regarding further medical treatment after thoroughly examination of the injured. Treat symptomatically

# 5 SECTION 5: FIREFIGHTING MEASURES

# 5.1 Extinguishing media

Suitable extinguishing media:

Co-ordinate fire-fighting measures to the fire surroundings water spray, foam, dry extinguishing powder, carbon dioxide (CO2)

Unsuitable extinguishing media:

Jet water.

# 5.2 Special hazards arising from the substance or mixture

During the fire, the product may produce harmful gases. Do not inhale combustion products, they can be dangerous for human health

# 5.3 Advice for firefighters

Personal protection typical in case of fire. Do not stay in the fire zone without self-contained breathing apparatus and protective clothing resistant to chemicals. Do not let extinguishing water to reach drainage system, surface water and groundwater. Collect used extinguishing media.

# **6 SECTION 6: ACCIDENTAL RELEASE MEASURES**

# 6.1 Personal precautions, protective equipment and emergency procedures

<u>For non-emergency personnel</u>: Limit the access for the outsiders into the breakdown area, until the suitable cleaning operations are completed. In case of large spills, isolate the affected area. Avoid direct contact with releasing product. Avoid breathing vapors. Use personal protective equipment. Avoid contact with eyes and skin. Provide adequate ventilation. Remove all sources of ignition, extinguish flames, prohibit smoking. Danger of slipping on spilled product. <u>For emergency responders:</u> ensure that only the trained personnel removes the effects of the accident. Use personal protective measures.

### **6.2** Environmental precautions

In case of release of large amounts of the mixture, it is necessary to take appropriate steps to prevent it from spreading into the environment. Do not let the product to get to the sewage system. Notify relevant emergency services.

date of issue: 20.09.2023

VERSION: 1.0/EN

# **Coving Mortar ES Component B**

in accordance the Commission Regulation (EU) No **2020/878** of 18 June 2020 amending Annex II to Regulation (EC) No 1907/2006 of the European Parliament and of the Council concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH)

# 6.3 Methods and material for containment and cleaning up

Large spill: isolate the place of liquid accumulation, pump away the collected liquid.

Small spill: collect with incombustible materials which absorb liquids (for example: sand, soil, universal firming agents, silica, vermiculite, etc.) and place in labeled containers. Treat the collected material as waste. Clean and ventilate the affected area

# 6.4 Reference to other sections

Personal protective equipment: see section 8. Incompatible materials: see section 10. Disposal considerations: see section 13.

### 7 SECTION 7: HANDLING AND STORAGE

# 7.1 Precautions for safe handling

Avoid contact with skin and eyes. Do not breathe mist/vapors/spray. Handle product only in closed system or provide appropriate exhaust ventilation. Use spark-proof tools and explosion-proof equipment. Use only non-sparking tools. Keep away from open flames, hot surfaces and sources of ignition.

# 7.2 Conditions for safe storage, including any incompatibilities

Keep in a dry, cool and well-ventilated place. Refer product specification and/or product label for specific storage temperature requirement. Keep container tightly closed. Keep away from heat, sparks and flame. Do not store with incompatible materials (see subsection 10.5).

### 7.3 Specific end use(s)

No information on applications other than those listed in subsection 1.2.

### 8 SECTION 8: EXPOSURE CONTROLS/ PERSONAL PROTECTION

# Recommended monitoring procedures

Procedures shall be in place to monitor the air concentrations of hazardous components and, where available and justified at the workplace, to control the cleanliness of air in the workplace in accordance with relevant Polish or European Standards, taking into account the conditions at the exposure site and the appropriate measurement methodology adapted to the working conditions. The mode, type and frequency of tests and measurements should meet the requirements of the Ordinance of the Minister of Health of 2 February 2011 (OJ No. 33, item 166).

# 8.2 Exposure controls

# 8.2.1 Appropriate engineering controls

Use the product in accordance with good occupational hygiene and safety practices. When handling do not eat, drink or smoke. Before break and after work wash hands carefully. Avoid eye contamination and prolonged skin contact. Do not inhale vapors. Ensure adequate ventilation in order to maintain the concentration of harmful factors below the limit values

date of issue: 20.09.2023

VERSION: 1.0/EN

# **Coving Mortar ES Component B**

in accordance the Commission Regulation (EU) No **2020/878** of 18 June 2020 amending Annex II to Regulation (EC) No 1907/2006 of the European Parliament and of the Council concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH)

# 8.2.2 Individual protection measures, such as personal protective equipment

# Hand and body protection

Use gloves resistant to chemicals. Recommended glove [nitrile rubber] In case of short-term exposure wear the protective gloves with protection level 2 or higher (breakthrough time > 30 min). In case of long-term exposure wear the protective gloves with protection level 6 (breakthrough time > 480 min). Wear protective clothing and shoes – resistant to chemicals

When using protective gloves during work with chemical products, it should be noted that the efficacy levels and corresponding breakthrough times do not indicate actual times of protection at a particular workplace, because the protection can be affected by many factors, e.g. temperature, other substances etc. If there are any signs of degradation, damage or change in appearance (colour, flexibility, shape), it is recommended to replace the gloves with a new pair. Please follow the manufacturer's instructions, not only in terms of gloves' usage, but also in terms of their cleaning, maintenance and storage. It is also important to know how to take off the gloves in order to avoid hands contamination.

# Eye/face protection

Use protective glasses, if there is a risk of eye contamination. It is recommended to equip the workplace with a water shower for rinsing eyes.

### Respiratory protection:

Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use

Personal protective equipment must meet requirements of directive 89/686/CE. Employer is obliged to ensure equipment adequate to activities carried out, with quality demands, cleaning and maintenance

# 8.3 Environmental exposure controls

Avoid release to the environment, do not enter the sewage system. Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation

## 9.2 Other information

Physical state:

# 9.2.1 Information with regard to physical hazard classes

Information unavailable

date of issue: 20.09.2023

VERSION: 1.0/EN

# **Coving Mortar ES Component B**

in accordance the Commission Regulation (EU) No **2020/878** of 18 June 2020 amending Annex II to Regulation (EC) No 1907/2006 of the European Parliament and of the Council concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH)

# 9.2.2 Other safety characteristics

Information unavailable

# 10 SECTION 10: STABILITY AND REACTIVITY

# 10.1 Reactivity

No reactivity under recommended storage and handling conditions.

# 10.2 Chemical stability

Stable under recommended storage and usage conditions.

# 10.3 Possibility of hazardous reactions

Stable under normal conditions of use and storage

### 10.4 Conditions to avoid

Information unavailable

# 10.5 Incompatible materials

Sodium chlorate. Organic acids (e.g. acetic acid, citric acid, etc.). Mineral acid The product causes slow corrosion of copper, aluminum, zinc and galvanized surfaces. Reaction with peroxides may cause the peroxide to decompose rapidly and create an explosion hazard. Carefully! N-Nitrosamines, many of which are considered potentially carcinogenic, may be formed when the product comes into contact with nitric acid, nitrites or atmospheres with high concentrations of nitrous oxide. Nitrous acid and other nitrosating agents. Reactive metals (e.g. sodium, calcium, zinc, etc.). Substances that react with hydroxyl compounds. Oxidizing agents

### 10.6 Hazardous decomposition products

Depending on the decomposition conditions, complex mixtures of chemical substances can be released: carbon dioxide (CO2), carbon monoxide and other organic compounds. Reference to other sections: 5.2.

# 11 SECTION 11: TOXICOLOGICAL INFORMATION

# 11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008 Toxicity of components

Benzyl alcohol

LD50 Dermal Rabbit 2000 mg/kg -

LD50 Oral Rat 1230 mg/kg

Formaldehyde, polymer with benzamine, hydrogenated

LD50 (Rat): 2,108 mg/kg

# **Toxicity of mixture**

ATE  $_{\text{MIX}}$  oral (mg / kg): ~470-480 Harmful if swallowed

ATE MIX dermal (mg/kg): >2000. The mixture does not contain substances classified in this hazard class.

ATE  $_{MIX}$  inhalation (mg / I / 4h): ):~32-34 [mist]. The mixture does not contain substances classified in this hazard class

\*ATEmix value was calculated using relevant converted acute toxicity point estimate included in 3.1.2 table from Regulation 1272/2008/EC

Skin corrosion/irritation:

Causes severe skin burns

Serious eye damage/irritation:

Causes serious eye damage

Respiratory or skin sensitisation

May cause an allergic skin reaction

Germ cell mutagenicity

Based on available information, classification criteria are not met.

Carcinogenicity

date of issue: 20.09.2023

VERSION: 1.0/EN

# **Coving Mortar ES Component B**

in accordance the Commission Regulation (EU) No **2020/878** of 18 June 2020 amending Annex II to Regulation (EC) No 1907/2006 of the European Parliament and of the Council concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH)

IARC: No component of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC.

#### Reproductive toxicity

Based on available information, classification criteria are not met.

## STOT-single exposure:

Based on available information, classification criteria are not met.

#### STOT-repeated exposure;

May cause damage to organs through prolonged or repeated exposure

### **Aspiration hazard**

Based on available information, classification criteria are not met.

### Delayed and immediate effects as well as chronic effects from short and long-term exposure

Contact with skin: Redness, pain, severe burns, tissue necrosis. May cause an allergic skin reaction

Contact with eye: Serious burns, cornea and conjunctiva damage leading to irreversible vision loss and even

blindness.

Ingestion: Harmful if swallowed Causes severe burns of the mouth, throat, stomach, severe

gastrointestinal tissue damage (risk of perforation) can lead to death. Symptoms: severe pain, vomiting, diarrhea, low blood pressure, symptoms of damage can occur several days

after exposure

Inhalation: Harmful if inhaled Causes serious damage to the upper respiratory tract, burns, possible

chemical pneumonitis and pulmonary oedema. May cause respiratory irritation

# 11.2 Information on other hazards

# 11.2.1 Endocrine disrupting properties

The components of the mixture do not affect the functioning of the hormonal system in accordance with the evaluation criteria defined in the Regulations: (EC) No 1907/2006, (EU) 2017/2100, (EU) 2018/605

#### 11.2.2 Other information

Not applicable to substances

# 12 SECTION 12: ECOLOGICAL INFORMATION

# 12.1 Toxicity

Harmful to aquatic life with long lasting effects.

In order to minimise long-term global pollution, this should be considered:

- Reducing the use of products and disposable packaging.
- Participation in recycling activities
- Do not allow product to enter water, sewage or soil

### 12.2 Persistence and degradability

No data available

# 12.3 Bioaccumulative potential

No data available

## 12.4 Mobility in soil

The mobility of the substance depends on their hydrophilic and hydrophobic properties and abiotic and biotic conditions of soil, including its structures, climatic conditions, seasons (in Poland, in a variable moderate climate) and soil organisms, mainly (bacteria, fungi, algae, invertebrates).

### 12.5 Results of PBT and vPvB assessment

PBT/vPvB assessment not available as chemical safety assessment not required/not conducted.

### 12.6 Endocrine disrupting properties

The product shall not contain ingredients included on the list established in accordance with Article 59(1) as having endocrine disrupting properties or ingredients with endocrine disrupting properties according to the criteria laid down in Regulation 2017/2100/EU or Regulation 2018/605/EU in concentrations equal to or greater than 0.1%.

date of issue: 20.09.2023

VERSION: 1.0/EN

# **Coving Mortar ES Component B**

in accordance the Commission Regulation (EU) No **2020/878** of 18 June 2020 amending Annex II to Regulation (EC) No 1907/2006 of the European Parliament and of the Council concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH)

# 12.7 Other adverse effects

The mixture is not classified as hazardous to the ozone layer. There should be considered the possibility of other harmful effects of the individual components of the mixture on the environment. (eg. the ability of disrupting endocrine, the impact of global warming potential).

# 13 SECTION 13: DISPOSAL CONSIDERATIONS

#### 13.1 Waste treatment methods

<u>Disposal methods for the product:</u> dispose in accordance with applicable regulations. Do not introduce into drains. Residues store in sealed, steel containers.

<u>Disposal methods for used packing</u>: reuse/recycle/eliminate empty containers in accordance with the local legislation. Only completely emptied packaging can be recycled.

Legal basis: Directive 2008/98/EC, 94/62/EC.

# 14 SECTION 14: TRANSPORT INFORMATION

#### 14.1 UN number or ID number

ADR/ARID/IMDG/IATA: UN2735

### 14.2 UN proper shipping name

ADR/RID/ IMDG/IATA: AMINES, LIQUID, CORROSIVE, N.O.S 274: Formaldehyde, polymer with benzenamine, hydrogenated

# 14.3 Transport hazard class(es)

ADR/RID/ IMDG/IATA: 8

### 14.4 Packing group

ADR/RID/ IMDG/IATA: III

# 14.5 Environmental hazards

ADR/RID/ IMDG/IATA: Product is not classified as dangerous for the environment in accordance with transport regulations

# 14.6 Special precautions for user

# ADR

# 14.7 Maritime transport in bulk according to IMO instruments

The cargo is not intended to be carried in bulk.

## 15 SECTION 15: REGULATORY INFORMATION

# 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture Other legislation:

- 1. **1272/2008/EC** of the Regulation of the European Parliament and of the Council of 16 December 2008 on classification, labelling and packaging of substances and mixtures amending and repealing Directive 67/548/EEC and 1999/45/EC, and Regulation (EC) No 1907/2006.
- 2. **2018/669/UE** Commission Regulation (EU) 2018/669 of 16 April 2018 amending, for the purposes of its adaptation to technical and scientific progress, Regulation (EC) No 1272/2008 of the European Parliament and of the Council on classification, labelling and packaging of substances and mixtures Text with EEA relevance.
- 3. **790/2009/EC** of 10 August 2009 amending, for the purposes of its adaptation to technical and scientific progress, Regulation (EC) No 1272/2008 of the European Parliament and of the Council on classification, labelling and packaging of substances and mixtures.
- 2008/98/EC Directive of the European Parliament and of the Council of 19 November 2008 on waste and repealing certain Directives
- 5. **94/62/EC** Commission Directive 2013/2/EU of 7 February 2013;amending Annex I to Directive 94/62/EC of the European Parliament and of the Council on packaging and packaging waste
- 6. **2015/830/EU** Commission Regulation (EU) 2015/830 of 28 May 2015 amending Regulation (EC) No 1907/2006 of the European Parliament and of the Council on the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH)

# 15.2 Chemical safety assessment

The supplier has not assessed chemical safety It is not required for the mixture.

# 16 SECTION 16: OTHER INFORMATION

#### Other sources of information:

IUCLID Data Bank (European Commission – European Chemicals Bureau). ESIS – European Chemical Substances Information System (European Chemicals Bureau).

Safety Data Sheet made by: mgr Małgorzata Krenke; Feed Reach Consulting" www.frc.com.pl Disclaimer

The information above is based on a current available data concerning the product, but also on the experience and knowledge in this field of the producer. They are neither a quality description of the product nor a guarantee of particular features. They are to be treated as aid to safety in transport, storage and usage of the product. That does not free the user from the responsibility of improper usage of the information above and also of improper compliance with the law norms in the field

# **Coving Mortar ES Component B**

in accordance the Commission Regulation (EU) No **2020/878** of 18 June 2020 amending Annex II to Regulation (EC) No 1907/2006 of the European Parliament and of the Council concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH)

Classification according to Regulation (EC) No 1272/2008		
Skin Corr. 1B	H314	calculation method
Acute Tox. 4	H302	calculation method
Skin Sens 1	H317	calculation method
Aquatic Chronic 3	H412	calculation method
Eye Dam. 1	H318	calculation method
STOT RE 2	H373	calculation method

H (hazard) phrases specified in point 2 and 3 hereof:

(nazara) pinases specifica in point z ana s heres.				
H302	Harmful if swallowed			
Acute Tox 4	Acute toxicity (oral), Hazard Category 4			
H318	Causes serious eye damage			
Eye Dam 1	Serious eye damage/eye irritation, Hazard Category 1			
H314	Causes severe skin burns and eye damage			
Skin Corr. 1B	Skin corrosion/irritation, Hazard Category 1, Sub-Categories 1B			
H317	May cause an allergic skin reaction			
Skin Sens. 1	Sensitisation — Skin, hazard category 1, 1A, 1B			
H332	Harmful if inhaled			
Acute Tox4	Acute toxicity (inhal.), Hazard Category 4			
H373	May cause damage to organs			
STOT RE 2	Specific target organ toxicity —Repeated exposure, Hazard Category 2			
H412	Harmful to aquatic life with long lasting effects			
Aquatic Chronic 3	Hazardous to the aquatic environment — Chronic Hazard, Category 3			

**Explanation of returns** 

ADN	Accord européen relatif au transport international des marchandises dangereuses par voies de navigation intérieures (European Agreement concerning the International Carriage of Dangerous Goods by Inland Waterways)
ADR	Accord européen relatif au transport international des marchandises dangereuses par route (European Agreement concerning the International Carriage of Dangerous Goods by Road)
CAS	Chemical Abstracts Service (service that maintains the most comprehensive list of chemical substances)
CLP	Regulation (EC) No 1272/2008 on classification, labelling and packaging of substances and mixtures
CMR	Carcinogenic, Mutagenic or toxic for Reproduction

# **Coving Mortar ES Component B**

in accordance the Commission Regulation (EU) No **2020/878** of 18 June 2020 amending Annex II to Regulation (EC) No 1907/2006 of the European Parliament and of the Council concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH)

IMDG	International Maritime Dangerous Goods Code	
index No	the Index number is the identification code given to the substance in Part 3 of Annex VI to	
	Regulation (EC) No 1272/2008	
MARPOL	International Convention for the Prevention of Pollution from Ships (abbr. of "Marine	
	Pollutant")	
NLP	No-Longer Polymer	
PBT	Persistent, Bioaccumulative and Toxic	
PNEC	Predicted No-Effect Concentration	
REACH	Registration, Evaluation, Authorisation and Restriction of Chemicals	
RID	Règlement concernant le transport International ferroviaire des marchandises Dangereuses	
	(Regulations concerning the International carriage of Dangerous goods by Rail)	
STEL	short-term exposure limit	
SVHC	Substance of Very High Concern	
TWA	time-weighted average	
VOC	Volatile Organic Compounds	
vPvB	very Persistent and very Bioaccumulative	
WEL	workplace exposure limit	

# **Training**

Prior to working with the product you should be familiar with safety rules for handling the chemicals, in particular take proper workplace training. **People associated with the transport of hazardous materials in accordance with ADR** should be adequately trained to perform their duties (general training, bench and safety).
